CORBETT DECLARED HE WAS READY TO FIGHT.

His Friends Held Him While McCoy Got In His Work-Corbett Was Gr Kicked In the Groin-Erne Bests Lavigne In a Twenty-round Fight -The Split In the L. A. W.

New York, Sept. 28.—The puglitsts "Kid" McCoy and James J. Corbett, whose match has been broken off, met in the lobby of the Gilsey House today. McCoy knocked Corbett's hat off, and then, while Corbett was held by his friends, kicked Corbett in the groin. He then ran out of a side door away from the crowd. Corbett was taken to his room and a doctor summoned. Corbett, his menager, George Consi-dine, and Al Smith are lunch together

They then walked out through the lobby, and in the Brondway entrance met David Nugent of the Hawthorne Athietic clot, who joined them. In one end of the entrance were hickoy, William Gray of the Hawthorne club and six other men. They were talking excitedly. Considing walked up.

saluted Gray, and Corbett walked up
to do likewise. Gray, after acknowledging the salute, said to Corbett.
"I don't think you want to fight."
"What's that?" inquired Corbett.
Gray repeated the remark, and Corbett loudly said that he was ready to
fight McCoy anywhere and at any
time. "I'll fight him now and right
here on the street," said Corbett.
McCoy, who had been listening,
tepped up to Corbett as the latter
spoke, and knocked off his hat. Several of Corbett's friends, wishing no

A large crowd had gathered at the first rumor that the prizofighters were in the hotel together, and by the time that the report that they got into a fight had been spread, which was in a few minutes, the hotel was besieged. The crowd was in a state of excitement about the alloged fight, but neither of the puglilists was seen by the people. the pugilists was seen by the people. McCoy disappeared early.

ERNE BESTS LAVIGNE.

Lightweight Champion Came Near Losing His Title.

New York, Sept. 28 .- "Kid" Lavigne. sew fork, Sept. 25.—Kid Lavigne, lightweight champion pugnist of the world, came very near losing his title tonight at the Greater New York Athletic chib in a 29-round bout with France Erne of Buffalo. Erne proved a tartar for the Saginaw boxer, who is not the Lavigne of three years ago by any means. Erne's wonderful improvement was a surprise to the 7000 people. ment was a surprise to the 7,000 people who witnessed the fight. He drew La-vigne to him and sent back as good as he got in many of the rounds, while in some of them he out-pointed the cham-nion.

It was generally understood that a decision was to be given on points, and the statement made at the end of the bout that both men had agreed to call it a draw in the case the men were good and strong at the end of the twentieth round, was a source of keen disappointment to a host of Erne's friends, who looked for a favorable decision. Had the bout been decided upon points, Erne certainly would have got the championship honors and the winner's slice of the \$2,000 purse which the club hung up for the contest.

"The nation's army and navy have won the admiration of the world, and the men in arms deserve every consideration that human thought and wealth can give, and we grieve at the unnecessary suffering they have undergone in the various millitary camps, and we demand that a thorough investigation be had as to the cause of said suffering.

"A public office is a public trust, and county local affairs should be administrated on business principles, with the steatest good to the greatest number in view, and we pledge the candidates of the party to a thorough business administration of county affairs.

"The future growth of Grand county depends largely on the development of its great natural resources, which can place it to the front as a wealth-producing county of the state, and, as good roads are necessary to its development, we ask the legislature for state and for improvements of the roads of this county.

"Grand county possesses a large tract of the most tertile soil, needing only irrigation to make it capable of supporting many thousand families; the waters of Grand river can be utilized for such purposes; we urge the legislature of the state to consider the selection of these lands for the state and the construction of a canna for its irrigation."

The following ticket was nominated: For representative, A. P. Sorensen of Moab. (Mr. Sorensen represented the county in the last Session); for county commissioners, tames M. Waring of Richardson; for county treasurer, Robert J. Thomson: county ussesser, A. P. Mohr; county altorney, J. N. Corbin; sheffil, Jesse Tyler; surveyor, E. E. Campbell.

The ticket is considered by all a very strong one, and will draw to it much of the dissapisfied element in the Republican ranks.

Brakeman and Engineer Who Were Scalded In the Railroad Disaster at Grace On Tresday.

Monday was so manifestly ill-advised and unfair that the result has fallen like a wet blanket upon a majority of the hitherto active and influential party workers, who cannot see their way clear to give ardent support to the county ticket put in nomination. Prominent among these is the Hon. Henry Adams, member of the Republican state committee, and of the county and precinct committees. Mr. Adams is recognized throughout the state as one of the shrewdest of party managers, but he feets called upon to withdraw from local politics for the time being, as have most of the old-time Republican leaders on both sides of the county. The apparent intention is to let the verdant element provide the money and manage their insht. It is expected loyal support will be given, however, by this influential element to the Republican state and legislative tickets. The letter of Mr. Adams, which is now on file with the county chairman, is as follows:

N. H. Mix. Esq., Chairman County Committee: Dear Sir-I hereby tender my resignation as a member of your committee, to take effect at once. My personal duties are such that I cannot afford to neglect them to attend to committee work, for which ingratitude is the only consideration. Yours, truly, (Signed) "HENRY ADAMS."

FLURRY IN STOCKS.

Security Holders Scared By the General Demoralization.

Security Holders Scared By the General Demoralization.

New York Sept. 28.—Influences affecting individual properties furnished the motive for today's trregular price movement. The bears, flush with their recent successes, attempted to make it interesting for their opponents at the outset and affected a break in Tobacco and Sugar. The latter went down on the announcement of a reduction in grades of the product, but heavy supporting orders turned the current and forced heavy covering. Subsequent fluctuations were very erratic, in sympathy with the changes elsewhere, but the stock rebounded strongly and ended at the top. The futile efforts of the shorts to inflict damage upon the rational way list caused the traders to range on the leng side for a turn, and bullish sentiment became more marked. Absorption of the standard dividend stocks has been in progress lately by interests capable of holding them until the general situation became clearer and outside confidence regarding the tendency of the money market was restored. Consequently the apparent diminution in the floating supply of stock caused a momentary scrammle and values seemed to favor a belief that the bears were playing possum and content to wait until the market reached a higher level in order to make the losses more acute. Duliness followed the rise and little of interest developed until the late session, when Tobacco which reached a level fractionally above has right, slumped several points to LETY, and the market for Rubber and some other stocks was cut away.

The demoralization in Tobacco forced bedders to sacrifice their interests cles-

ed several points to 1.7% and the market for Rubber and some other stocks was cut away.

The demoralization in Tobacco forced holders to sacrifice their interests elsewhere, in order to meet the argent demands by commission houpees for additional markins. Reports regarding the nature of the forthcoming Burlington statement added to the break, and large blocks were let go with resultant severe loss. The success of the bear party in causing the demaralization in Sugar and Tobacco caused considerable nervousness and uncertaint among security-holders. NICARAGUA ROUTE FEASIBLE,

FAVORABLE REPORT FROM THE GOVERNMENT ENGINEERS.

canal is entirely feasible, and that the cost will be considerably less than the estimates made by the Ludlow commission, or the sum named by Walker a year ago as likely to be

The reduction in cost is due to a change in the location of the Ochoa dam and to other modifications of the old route. The Ludlow commission estimated the cost of the canal at \$133,000,000. Admiral Walker named \$150,000,000 as the aggregate cost. The report of the engineers will place the estimate at less than \$100,000,000.

By changing the location of the dam rom Ochoa to a point 14 miles lower own, the building of the San Juan basin and its costly embankment can be avoided and a saving of \$10,000,000 While Mr. Wheeler and other me while Mr. wheeler and other members of the returning party declined to be quoted at any length in reference to the canal work, they say their reports will show that the canal is a project containing no serious difficulty, and that it can be quickly and cheanly built

cheaply built. It is two years now since any actual work has been done on the canal by the company of which Warner Miller is the head. The concession obtained by the company from the Nicaragua government is said to still hold good. The attempt to build the canal by private means has been abandoned by Mr. Miller and his associates, and all rights in the premises have been offered to

the government.

A syndicate of Chicago capitalists, headed by E. F. Cragin, have looked over the ground, and it is now said to be endeavoring to obtain a concession from Nicaragua. Mr. Cragin and a party of civil engineers and contractors from Chicago have recently returned from the isthmus, and are said to be interesting members of congress in their plans.

The statisticians have placed the volume of the commerce that is likely to the government.

ume of the commerce that is likely to pass through the canal much higher than the estimates of the government, and their opinion is that the revenues to be derived will warrant them in spending considerably more than \$100,-000,000 in building the canal.

Big Raft Adrift.

San Francisco, Sept. 28.—The steamship Progresso is in port and the remains of the big Columbia log raft are drifting of Point Reyes. The bulky mass of lumber presents a serious menace to navigation. The steamer Humboldt arrived this afternoon and reported that she met the raft, slowed up and steered close to it. She dis-covered that it was a raft of piles. The section made up of immber is still to be heard from and may have been picked up by the tuss. Tugs from this city will put out to secure the pile raft if the sea is not to heavy to render it impracticable to make fast to the float.
